**TAKE THE RISK OUT OF
PROTECTING YOUR ASSETS!**

**ENERGY SAVINGS, INCREASED SERVICE LIFE, QUICK & EASY
APPLICATION, LOWER COSTS, NO TEAR OFF & OUTSTANDING
WARRANTY PROTECTION!**

DuroPro Engineered Products

Our systems restore and maintain every type of commercial system that exists; including TPO, PVC, Hypalon, EPDM, Built-Up Roof Systems (BUR), Modified-Bitumen Roof Systems, Spray Applied Polyurethane Foam, other liquid-applied systems, metal, concrete, and other cementitious materials.

OUR FULL PROTECTION SOLUTION

Our DuroPro Infinity Roof System can be used in many situations, from restoring existing roofs to roof removal and replacement. We will make sure that this system is right for your building and needs. Our teams will do the full install correctly ensure it provides long-term service and durability.

CALL OUR DEP TEAM for infrared scanning and core testing, construction, condition and recommendation report, budget, project specifications, pre-construction meetings, project inspections during installation, final inspection, full roofing system warranty, long-term planned roofing programs!

These before and after readings show the DuroPro Infinity Roof System can significantly lower rooftop temperatures. This can help keep your building cooler and more comfortable, leading to a potential reduction in the amount of energy that your facility uses.

BENEFITS OF PUTTING ON YOUR FINAL ROOF

With these elevated qualities for your roof, you don't need to look further than the DuroPro Infinity Roof System when you need to revitalize a roof.

Low life-cycle cost roof system * Excellent cold-weather flexibility, tensile strength and elongation properties * Low odor * Weathers well * Highly reflective * Easy to maintain, keeping them sustainable for the long haul * FM Global fire and wind rated * UL fire rated * Resistance to chemicals, traffic, hail and mold/mildew/ fungus
